Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/536,975	Applicant(s) WAUTERS ET AL.	
	Examiner Frederick C. Nicolas	Art Unit 3754	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,6,14,22-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Pierre FR2138685.

Pierre discloses a dispensing device for a bag containing an alcohol beverage as seen in Figure 6, which comprises a hollow elongated member (16) adapted to extend into the bag (1), the hollow elongated member has an end portion having an opening for receiving the beverage at a first temperature during a dispense cycle as seen in Figure 1, the hollow elongated member further including at least one lateral aperture (44) therein spaced apart from the opening to receive the beverage into the member during the dispense cycle, the at least one lateral aperture is provided for receiving a beverage at a second temperature. Please note that product within the container will have different temperature throughout its levels as admitted by applicant to be common in the art. Therefore, it is inherent that the temperature of the product at the at least one lateral aperture will be different from the opening at the end portion and be mixed during dispensing.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 2-5,15,17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pierre FR2138685 in view of Benedetti WO95/17119.

Pierre has taught all the features of the claimed invention except that the elongated member has a plurality of lateral apertures. Benedetti teaches the used of an elongated member (12) having a plurality of lateral apertures (15).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to utilize Benedetti's teaching onto Pierre's elongated member, in order to allow product to flow at different depths within the container.

Allowable Subject Matter

5. Claims 18-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments filed 5/4/2009 have been fully considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
